OBJECTIVE

A motivated and detail-oriented Information Technology undergraduate with a solid foundation in full-stack development and a growing understanding of software design principles. Eager to secure a Software Engineering Internship to sharpen my technical skills, strengthen my collaborative and time-management abilities, and contribute meaningfully to real-world projects.

PROJECTS

AgriConnect – Agency, Fleet & Smart Assignment Platform *(In Progress)* 2026

- Developing **Spring Boot** REST APIs for Agency, Driver, Vehicle, Package, Booking, Assignment, Maintenance, Finance, Reviews, and Notifications using **Java 21**, **PostgreSQL**, and **RabbitMQ**
- Building a responsive **Flutter** Agency Portal with **Riverpod**, **Dio**, and **GoRouter**, integrating fleet management, package configuration, booking workflows, finance, reviews, and notifications
- Implementing a smart driver/vehicle assignment engine with KYC, availability, licence, capacity, refrigeration, active-trip, and concurrency validation, supporting recommended or manual assignment
- Designing secure **TripAssignment** and event-driven booking workflows, including SLA handling, state synchronization, and role/ownership validation

FleetPro – Vehicle Fleet Management System ↗ Demo 2026

- Developed REST APIs using **Spring Boot** for driver and staff management (CRUD operations, license/status/joining-date tracking) as part of a **5-member team** building a full-stack fleet management platform
- Built a responsive, dark-mode-enabled **Driver & Staff Management UI** with **Tailwind CSS**, integrated end-to-end with backend REST APIs
- Designed the system's data model via a **UML ER Diagram** and implemented **role-based access control** across admin, approver, staff, and driver roles in a **Java/Spring Boot + Next.js (React)** stack
- Deployed the Spring Boot backend to **AWS Elastic Beanstalk** (JAR built with Maven), provisioning the EC2 runtime and exposing REST APIs for frontend consumption

EDUCATION

University of Moratuwa 2024 – 2028 (Expected)
BSc (Hons) in Information Technology, Faculty of IT Colombo, Sri Lanka

- **GPA**: 3.34 | **Relevant Coursework**: Computer Networks, Database Management Systems, Data Structures & Algorithms, Statistics
- Completed a full-stack development software project (**FleetPro**) for the 2nd-year *Software Project* module

Highlands College
GCE Advanced Level – Physical Science Stream Hatton, Sri Lanka

- Z-score: 1.4023

St. Joseph's College
GCE Ordinary Level Sri Lanka

- Achieved 9 "A" passes

SKILLS

Languages: Java, JavaScript, TypeScript, C
Frontend: React, Next.js, Tailwind CSS, HTML, CSS
Backend: Spring Boot, .NET
Databases: MySQL, MSSQL, PostgreSQL
DevOps Tools: Git, GitHub

LANGUAGE SKILLS

English: Fluent | **Tamil**: Native | **Sinhala**: Fluent

CERTIFICATIONS

Web Development Series – Open Learning Platform, University of Moratuwa [View Certificate]

Programming in Python Series – Open Learning Platform, University of Moratuwa [View Certificate]

Programming Using JavaScript – HackerRank [View Certificate]

CSS – HackerRank [View Certificate]

C (Programming Language) – Certification [View Certificate]

EXTRA-CURRICULAR ACTIVITIES

B2B Team Member – AIESEC Colombo South (2025)

Photography Pillar Member – MoraSpirit Organization (2024 – 2025)

Member – Students' Union, University of Moratuwa (2024)

Microcontroller-based Project Development – 1st-year hardware/IoT project (2025)
